

National Animal Supplement Council

Preferred Supplier Non-Botanical Ingredient Data Sheet (N-BIDS)

NASC established a **Preferred Supplier Program** for companies who wish to provide products and services to NASC member companies, including raw materials (ingredients), contract manufacturing (dosage form products and feed supplements), analytical laboratory services and other services such as insurance, business consulting, legal expertise, etc.

The goal of the program is to prequalify vendors so that NASC members may accept and use products or services from Preferred Suppliers without additional vendor qualification procedures required under NASC cGMPs.

There are four categories of **NASC Preferred Suppliers**: Raw Material Suppliers, Contract Manufacturers, Analytical Laboratories and Service Providers.

The qualification procedure includes providing information to NASC on the scope of company operations, quality compliance program certifications, statements and additional documentation specific to the type of supplier, e.g., data sheets for each ingredient a Raw Material Supplier would like to qualify and include in the program.

Preferred Supplier Non-Botanical Ingredient Data Sheet

All Raw Material Suppliers must provide the information requested in this form as part of the qualification procedure for a single non-botanical ingredient. Any fields not applicable to the company or ingredient should be completed by entering N/A.

Please return copies of the requested certifications and the completed form electronically to Bill Bookout at b.bookout@nasc.cc or mail to:

PRODUCT INFORMATION

DATE: November 29, 2018

PRODUCT: S.D. Pork Liver Powder, EHT (PC 61A)

Safe for Consumption:

Our Spray Dried Pork Liver Powder process is regulated by the USDA's Food Safety and Inspection Service (FSIS), and is subject to all applicable regulations detailed in the Final HACCP rule (21 CFR 417). This rule, in part, requires daily auditing of our facility and any HACCP related processes by a USDA FSIS Consumer Safety Inspector (CSI). Spray Dried Beef Liver Powder is USDA Inspected and Passed product and therefore "fit for human consumption".

BSE / TSE:

Spray Dried Pork Liver Powder is processed using edible porcine livers collected from porcine animals slaughtered in USDA inspected establishments in the USA. All porcine animals passed ante and post-mortem inspections performed by a USDA-FSIS trained veterinarian and were found fit for human consumption. The USA is recognized as a country with a "Negligible BSE Risk" as set forth in the World Organization for Animal Health, Office Internationale des Epizooties (OIE).

Porcine animals are not considered a "TSE-relevant species" as defined in Ph. Eur. General Chapter 5.2.8 "Minimising The Risk Of Transmitting Animal Spongiform Encephalopathy Agents via Medicinal products" and are therefore excluded from the scope of this regulation.

ALLERGEN:

Per the Food Allergen Labeling and Consumer Protection Act of 2004 (FALCPA), the allergens of concern are: milk or milk products, egg or egg products, fish, crustacean shellfish, tree nuts, peanuts, wheat, or soybean or soy-based products (the FDA's "Big 8" allergens). No FALCPA listed allergenic materials are used in the processing of this product.

GLUTEN:

No Gluten or ingredients containing Gluten (Wheat, oats, barley, rye) are used in the manufacture of this product. This product is not tested for the presence of Gluten.

IRRADIATION / ETO:

This product is not treated with Ethylene Oxide (ETO), nor is this product irradiated.

GMO / GE:

American Laboratories does not genetically modify our products in any way, and to the best of our knowledge, none of our products contain genetically engineered ingredients.

KOSHER:

This product is not Kosher certified.

HALAL:

This product is not Halal certified.

ORGANIC:

This product is not Organic certified.

HORMONE:

Glands and tissues from animals do contain naturally occurring hormones. American Laboratories does not use any hormones in the processing of our products, nor do we test for the presence of any natural or non-natural hormones in our products.
