

Naturally Rid those Radicals*

NatAxtin™

A natural, premium astaxanthin from Chile's Atacama Desert.

NatAxtin™ is produced from *Haematococcus pluvialis* grown in a pristine desert environment. Striving for sustainable and natural harvesting, a proprietary process harvests atmospheric CO2 to support *H. pluvialis* metabolism.

In conjunction with the highest solar irradiance on the planet, the algae are able to produce pure, high quality astaxanthin, which is extracted via energy-efficient, environmentally-friendly supercritical CO2 extraction.

Ingredient Overview

Natural astaxanthin has up to 90X the antioxidant activity compared to synthetic astaxanthin.* Rest assured that when you use NatAxtin astaxanthin, you are getting 100% natural astaxanthin - at a reasonable price.
